Safety Moment: Anaphylaxis

GENERAL INFORMATION

Anaphylaxis is a serious allergic reaction that may occur rapidly or up to hours after eating or coming in contact with the allergen. Anaphylaxis, if untreated, may cause death. Rapid treatment with epinephrine is critical for patients having a severe anaphylactic reaction.

Symptoms might include: Hives; Swelling of mouth, tongue, or eyes; Throat tightness Hoarseness; Fainting; Runny nose; Difficulty breathing, wheezing; Skin redness or itching; Vomiting; Abdominal cramps; Diarrhea; Headache; Chest pain

Common causes: Medications, insect stings or bites, foods

Common food allergens:
Peanuts, tree nuts, eggs, milk, wheat, soy, shellfish, fish, sesame seeds

Safety Moment: Anaphylaxis

Prevention

- Review your group's Annual Health and Medical Records before leaving.
- If someone has a severe allergy, know the types of allergens and what symptoms they have had in the past. Some people may have severe allergies to many things.
- Develop an anaphylaxis plan with the parent/guardian and youth before the event.
- Be sure that they are carrying their unexpired epinephrine auto-injectors before leaving for a campout or event AND that they know how to use them. Having two doses of epinephrine is recommended since often the medication needs to be repeated during an anaphylaxis episode. Ask to see the medication and know where they store it so you and others know how to find it in the event of an emergency. It is important for the individual to always have their medication with them and that at least one other person with them knows where to find it.
- Consider obtaining training in the use of epinephrine auto-injectors if you have someone in your unit with severe allergies. Check with your state and local laws beforehand.

WHAT TO DO IF SOMEONE IS HAVING AN ANAPHYLACTIC REACTION

- Get help and call 911.
- If epinephrine is available, help the individual administer the medication immediately.
- Monitor breathing.
- Have them sit or lie down. They may lose consciousness.
- Never leave the person alone. Be prepared to administer CPR.
- A second dose of epinephrine may be needed if symptoms do not improve or if they return.
- Get advanced emergency medical care. Symptoms may return hours later even after epinephrine has been given.

Really Fun Stuff

ACTIVITIES AND EVENTS

The NESA Outstanding Eagle Scout Award (NOESA) was established in 2010 as part of the 100th anniversary of Scouting America,with the first recipient to receive the award a year later. The award was created to recognize notable Eagle Scouts who had performed distinguished service at the local, state, regional, or national level both within scouting and in their careers, avocations, and within scouting or whohave made significant contributions to community service through other community efforts and organizations outside of scouting.

NOESA nominees and recipients represent individuals who have inspired others through their actions and have devoted a lifetime to their profession, avocation, community, and beliefs, at great sacrifice to themselves and their families.

Since 2011, The Golden Gate Area Council has recognized more than 80 Eagle Scouts as “Outstanding Eagle Scouts”.
WE know that there are many more Eagle Scouts who deserve this recognition, so please, send us their nominations.

Nominations for the 2026 GGAC Outstanding Eagle Scouts are now open.
Nomination forms can be downloaded at: https://nesa.org/noesa-nomination-form-3-19-25/

Please download, complete the form and email it to Jay A. Johnson, GGAC NESA Chapter Awards Chairman at Johnson-TVeagle@sbcglobal.net by November 22, 2026.

Movo AI

GGAC is participating in a national pilot of Movo, which uses AI agents to support membership:

- **Sam** helps with leads and applications.
- **Jess** contacts unit leaders about updating their unit pins.
- A third AI agent will help with membership renewals.

Movo can also follow up with families who signed in or expressed interest at your pack's recruiting events.

Please respond when Movo contacts you and keep your unit pin's information current. If you don't have access to your unit's dashboard, contact your district professional or reply to this email.

Need Help or Credentials? If you are unable to access your account or need new credentials, simply reach out to your district professional or the membership email address for immediate assistance.

Movo AI

Getting Started with Movo AI for Scouting Units

Seamlessly connect with interested families & manage follow-ups automatically

As a Unit Leader, your primary role is to keep unit information current and respond promptly when Movo alerts you that personal assistance is needed.

1. Share Attendance Lists

To get started, share your attendance lists from sign-up nights or interest activities with your district professional or email:

membership@goldengatescouting.org

2. Access Your Account

Once your unit is set up, sign in directly to manage your unit dashboard at:

https://app.trymovo.ai/

Need Help or Credentials? If you are unable to access your account or need new credentials, simply reach out to your district professional or the membership email address for immediate assistance.

Maintain Accurate Unit Knowledge to Empower Movo

Unit Leader Responsibility

Proactively update your BeAScout pin and Movo Knowledge section whenever changes occur. Keep entries focused on a single topic at the unit level to prevent system confusion.

Essential Topics to Populate in Movo

- **Meetings**
  Schedules, frequency, day/time, and gathering structure.
- **Location**
  Primary meeting spot, facility details, and arrival directions.
- **First Visit Expectations**
  What new families should expect, wear, or bring to their first visit.
- **Costs & Dues**
  Dues, uniform costs, registration fees, and available financial aid.
- **Upcoming Activities**
  Camps, community service projects, outings, and key events.
- **Unit Contact Information**
  Leader names, emails, phone numbers, and preferred contact roles.
- **Who Can Join (Eligibility)**
  Age/grade requirements, gender preferences (boys/girls/linked), and program levels.

Configure Notifications & Manage the 'Needs You' Queue

Movo AI

Settings & Notifications

Movo ensures you never miss a family needing personal assistance through customizable alerts.

Navigate to Settings > Notifications
Choose between Email, Text, or both.

Requirement & Link Access
Mobile number required for text. Each alert includes a direct link to review conversation history.

'Needs You' Queue Actions

Triggered when Movo cannot answer a question. Prioritized with longest-waiting families first.

1. Reply
Read and respond directly to the family's questions.

2. Answer
Fill a knowledge gap directly in the system for future use.

3. Assign
Route the family request to another unit leader.

4. Mark Complete
Use if the issue was successfully resolved offline.

Important Reminder:
Always remember to select **'Hand back to Movo'** when finished so the AI can resume management.

Text Notifications Update - 10/8

Texts to your families now come from a verified Scouting America contact

Movo has worked with the mobile carriers to send messages from an approved, verified brand. When a family asks about your unit, the text they get shows the Scouting America name, logo and a verified check mark, just as if Scouting America were already saved in their contacts.

Sam's first text also **now introduces Sam as an AI assistant** with Scouting America, so families know who they are talking to from the start. If a family would rather talk to a person, Sam brings you in.

How families are responding

Families unsubscribe at a rate 90% lower than the industry standard for text messages. And more than twice as many families who ask about a unit go on to sign up, compared with the Scouting America national average.

There is nothing you need to do. Sam keeps texting the families who ask about your unit and brings you the questions only you can answer.

What a family sees on their phone

Leverage Automated Follow-Ups to Engage Unresponsive Families

Movo AI

1

Automated Outreach

Movo AI reduces administrative burden by automatically reaching out via texts and phone calls to families who have not yet responded.

2

Track Timing in 'Coming up'

Easily monitor the automated workflow by checking the 'Coming up' section, displaying exact timing for planned follow-ups.

3

Manual Control & 'Pause'

Select 'Pause' on a profile to immediately halt outreach when manual intervention is needed or requested by a family.

Maintain full control over your communication workflow while ensuring no interested family falls through the cracks.

Anything From the Floor?

A round table meeting is a facilitated, collaborative discussion where participants—often experts or stakeholders—share ideas, opinions, or expertise on a specific topic in an egalitarian setting.

“Take Me Out to the Forest”

To the tune of Take Me Out to the Ballgame

Take me out to the forest

Let me hike in the wild.

Show me a skunk and a few bear tracks.

I won’t care if I never come back.

But it’s look, look, look at your compass.

If it rains, then it pours.

And it’s ouch, slap, sting and your bit

In the great outdoors!

Fall Round-Up Process

Council focus: Cub Scout packs
The same model works for every program

1 Every pack conducts TWO fall joining opportunities

2 WHAT IS A JOINING OPPORTUNITY?

Joining opportunities do three things:

Experience Cub Scouting
A fun, hands-on activity for the kids

Connect With the Pack
Meet leaders; learn when and where the pack meets

Take the Next Step
Register on the spot; leave with a next date.

Any format works. Three examples:

Pack Open House
Families join a real pack meeting.

Stand-Alone Join Night
A short event built for new families.

Fun Activity Event
Rocket launch, fishing, hike, derby.

Active, personal, welcoming. Not a presentation.

3 HOW FAMILIES HEAR ABOUT IT

No single channel reaches every family:

Personal Invitations
People join people.

Scout Talks
Schools, faith groups, charter orgs.

Flyers, Banners & Signs
Simple message, pack contact, QR code.

Digital & Grassroots
Peachjar, social, Nextdoor, email and text.

Council Geofenced Ads
Give your professional your dates early.

Council marketing builds awareness. Pack outreach builds trust.
